Vertical & Horizontal Channel Locks		Available when equipped w/Quilt Magician	
Professional Delivery, Set-up & Training		Available through Factory-trained Dealer Network	

Lizzie Stitch

Apprentice Plus by TinLizzie18 features soft-touch button controls on each handle with an LCD display. When you select the famous Lizzie Stitch mode on the LCD screen, your machine coordinates with your movements; as you move the machine it sews, when you stop it stops with you. With stitch regulation so precise, and stitching as small as 22 stitches per inch, the Lizzie Stitch allows for even the finest micro-stippling.

Auto Needle Positioner

Apprentice Plus by TinLizzie18 has the ability to stop in the needle up or needle down position, minimizing bent or broken needles and allowing free movement of the machine.

Built-in Bobbin Winder w/ Large Bobbin

Apprentice Plus by TinLizzie18 offers a built-in bobbin winder that winds while you quilt, so your next bobbin is always full and ready. It also features the largest available bobbin capacity, the M-size bobbin.

Adjustable Comfort Grip Handlebars

Apprentice Plus by TinLizzie18 has adjustable front and rear curved handlebars allowing for easy movement of the machine and help to ease tension and tired muscles, making quilting easier.

Direct Drive Motor

Apprentice Plus by TinLizzie18 provides a more responsive and accurate stitch with less wear on the internal parts of your machine thanks to the all new direct drive motor.

Oil Reservoir

Apprentice Plus by TinLizzie18 requires little maintenance. The oil is self-contained so you no longer have to worry about oil on your quilts or oiling the hook with every bobbin change.
